Owner of Record: Highlife Farms

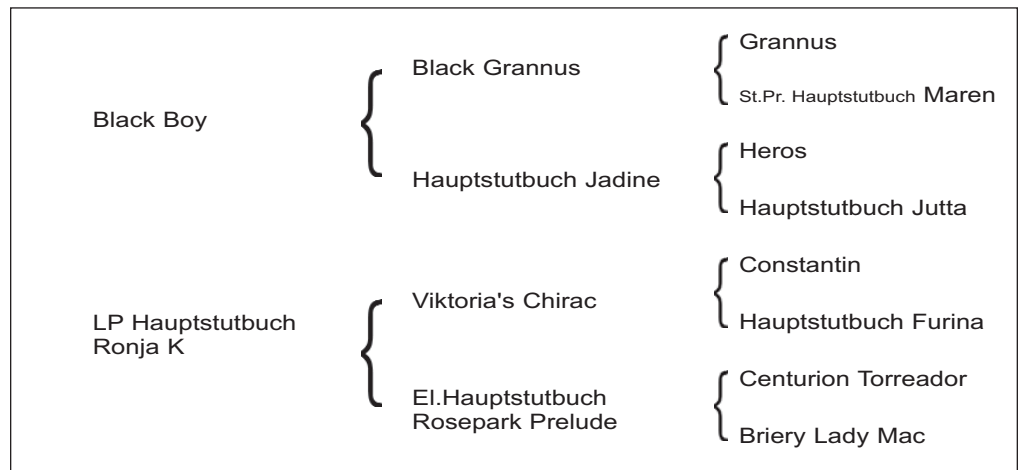

EVA Status: Negative

Breeder's Terms: \$1,000

Fresh/Cooled or Frozen semen.

Semen Distribution charges, container deposit not included in stud fee.

Origin: Highlife's Bodyguard is a charming Weser-Ems Germany Riding Pony with bloodlines that indicate quality, through and through. His sire, Black Boy, is by Black Grannus, son of the Hanoverian multi-millionaire Grannus. Grannus produced more than 60 approved sons and 7 Olympic athletes, after having a quite impressive international jumping career himself. This darling, black miniature copy of his great grandsire also brings very interesting genetic value through his motherline.

Bodyguard's dam is by Viktoria's Chirac, a son of the highly revered Welsh B pony stallion Constantin. Viktoria's Chirac is among the oldest of Constantin's offspring. He was titled Reserve National Champion of the 3-year old pony stallions in 1991 at the Bundeschampionat. Viktoria's Chirac earned a remarkable score of 143.1 at his stallion licensing at Münster-Handorf in 1993 and went on to win the 1994 Reserve National Champion title for 6-year old ponies. Viktoria's Chirac's sire Constantin is among the most distinguished pony stallions in Germany with 25 approved sons and 94 approved daughters, many of which are top States Premium mares. He was titled as an Elite Stallion by the Weser-Ems Breeding Society given the outstanding successes of his offspring in the Landes- and Bundeschampionats. By the year 2005, his many offspring in sport have earned him over 100,000 €. He has been ranked by the German FN as one of the top ten sport pony sires for many years.

Performance Record: Highlife's Bodyguard has campaigned successfully both in the Hunter ring and in low level dressage.

Breeding/Progeny Record: Much like the valued sires behind him, Highlife's Bodyguard has demonstrated his tremendous consistency and value as a producer. 100% of his foals have been rated premium by the Oldenburg Verband, with ample evidence that his charming good looks and active movement are reliably passed on to the next generation. He offers his exquisite head with chiseled features and big, intelligent eyes atop a beautiful frame with a natural, uphill balance for sport. His offspring are consistently dark, elegant, modern types with outstanding characters and a desire to please that makes them any sport pony's enthusiast's dream come true!
