EVA Status: Negative, vaccinated

Breeder's Terms: Stud fee: \$1,200 frozen LFG Booking fee included

Performance Record: Cabalito is on his way to becoming one of the top hunter stallions in the country. This 8 yr old son of Cordoba brings unique bloodlines into the US that are known in Germany for producing horses of excellent character and ridability.

At his licensing, Cabalito was selected by the State Stud at Celle. He participated in the 11 month stallion performance test which he completed at the top half of his class. He received 8's in willingness to work, walk, and trot. In 2001, Cabalito was USDF Region 9 Mature Horse Champion, and AHS Reserve Champion stallion.

Cabalito has shown very successfully in the First and Second Year Green Working Hunters, being champion at many AA rated shows, including the Ocala Winter Finals, and 3rd place in the \$25,000 GALA Hunter Classic. Demonstrating his enormous scope and ability, he moved into the jumper ring in 2004, and with limited showing, moved up to the level 7 jumpers in less than a year.

Breeding/Progeny Record: Cabalito has proven himself as an excellent producer of premium foals that are extremely fancy, beautiful movers with wonderful minds. His first foals are now debuting in the hunter ring, including: Collusion, Champion at the IHF finals in the 2 yr. old undersaddle; Corelli WH, ribbons at the IHF West; and Cabaret WH, Champion in Hunter Breeding and also Champion Hanoverian mare at her AHS inspection.
