Website: www.marefield.com

Owner of Record: Marefield Meadows

EVA Status: Neg

Breeder's Terms: Frozen semen only. Please contact owner for current fees and terms

Origin/Performance Record: Sire

Donnerhall needs no introduction.

Dauphin's dam, SPS Fabia, comes from

the breeding program of the late Otto Schulte-Frohlinde, founder of Donnerhall's former stallion station Groenwohldhof. Fabia's dam, SPS Papermoon, was winner of her age division at the 1990 Bundestutenschau. Fabia was champion of the 1993 Bruchhausen-Vilsen Mare Show. All of Fabia's daughters have achieved either the SPS in Germany or the Elite Mare designation of the American Hanoverian Society. Those in the US have also earned other awards. EM Folie (by Fabriano), in addition to being champion of her inspection and top-scorer at her MPT, qualified for the 2003 FEI 5-Year Old Championships with the highest score for Region I and the 2nd highest average in the nation. Under rider Laura Whitford, Dauphin's full sister Daalny earned the 2000 VADA/NOVA Chapter Year-End Award for Training Level and was ranked 4th in Virginia when she was competed for a season between having foals. In 2003, Dauphin's two younger full sisters were brought out in breed shows. Diotima was named Reserve Champion Filly and Dauphine came in next for 3rd place at the USDF/Cosequin East Coast Breeder's Final at Devon. At year-end Diotima placed 2nd in the 2003 USDF HOY 3-Year-Old Fillies division and was 1st place in the 3-Year-Old Filly Materiale category. The following year Dauphine was Champion Filly at the USDF/Cosequin East Coast Finals and finished 2nd in the nation USDF HOY 3-Year-Old Fillies division. In 2005, Dauphine earned her EMC with a MPT score that was 2nd in the US. In 2002, Dauphin was allowed to join 49 state-owned stallions for the 11-month training and stallion performance testing at Adelheidsdorf. His overall final score of 115.44 ranked him 10th in the group; his placing in dressage (score of 125.13) was 4th. At the end of his test, the Celle director invited Dauphin to stay at the Hanoverian State Stud on breeding lease.

Breeding/Progeny Record: In his first year at Celle, Dauphin bred 110 mares, a number which put him in the top 10% of the state stallions. The second year, he bred 135. The German breeders report that they like the typey, modern foals Dauphin produces especially since his bloodlines aren't particularly known for those qualities. They also like the correctness and the good gaits in Dauphin's offspring notably the walk and canter. Dauphin foals have placed well in foal shows and it is reported that a number of his colts have been purchased by stallion rearers. In the US, Dauphin has had limited breedings. In 2004, there was one overall inspection champion, two inspection colt champions and two fillies called back to the final ring. In 2005, Daisy Buchanan was winner of the yearling class and was Reserve Filly Champion at the Mid-Atlantic Hanoverian Breeders Mare Show.
