**Breeder's Terms:** \$1700 Stud Fee to Davidor Stud, LLC (includes \$300 non-refundable booking fee) plus \$250 collection fee to Shannondale Farm, Inc. Fresh cooled or frozen AI ONLY

**Origin:** Davidor is a black Hanoverian stallion by Davignon out of Wanessa (Warkant/Eiger). Davidor offers a top notch pedigree. His sire, Davignon I, is generally considered to be one of Donnerhall's best sons, having earned Class I scores at his licensing in 1991 before going on to win the Bundeschampionat in 1992. Davignon

is also noted as an outstanding sire having sired over 20 approved sons to date, including FEI stallions Davignport and Dacaprio. Davidor's damsire, Warkant, is by World Cup I, who also sired the famous Weltmeyer. Like Davignon I, Warkant earned Class I scores at his performance testing and is the sire of numerous approved sons, as well as top competition horses such as Hubertus Schmidt's Olympic mount, Wansuela Suerte. Davidor's dam, Wanessa, is a proven producer and a Bundeschampionat winner as well. She has consistently been represented at stallion licensings by her sons and produced mares of top quality. In Davidor's 3rd generation, we find Eiger I, patriarch of Hanoverian show jumping stallions such as Espri, Escudo I /II, El Bundy, etc.

**Performance Record:** DAVIDOR is a proven FEI stallion, having shown successfully through Intermediare in Germany. He is trained to Grand Prix and is currently being trained and shown in the United States by renowned FEI professional Kenn Acebal. DAVIDOR has Class 1 x-rays, is fully vaccinated, healthy and energetic. He exhibits a calm temperament, a strong work ethic and produces offspring with his same fine character, elegant movement and correct confirmation. 2008 USDF Region 3 FEI Dressage Reserve Champion, Intermediate I

**Breeding/Progeny Record:** Davidor's breeding index is 132/83% for dressage production in Germany. He has sired more than 80 healthy foals all of which have achieved PREMIUM status in their respective registries. Davidor's 2007 son, Dakarai, born at Shannondale Farm, was graded PREMIUM at the tender age of 3 weeks. More than half of Davidor's get age 6 and over are doing FEI dressage, showing he has a proven ability to make successful working mounts. Since 2000, Davidor has been represented 3 times by his daughters at the Bundeschampionat where they have placed well. DAVIDOR is a fine option for those wanting to breed strong competition mounts with a solid pedigree.
