Owner of Record: Highlife Farms
Joan Sims

EVA Status: Negative

Breeder's Terms: \$1500 booking fee included, life foal guarantee. Semen distribution charges and container deposit not included in stud fee.

Origin: Highlife's Diamond Stud offers the genetics of the most powerful Oldenburg bloodlines of today. His phenomenal sire Diamond Hit is a

Champion many times over, including titles earned at the World Championships for Young Horses and the Bundeschampionat. He further declared superiority over his peers when the German Ministry of Agriculture honored Diamond Hit as the Best Licensed and Performance Tested stallion of all breeds in 2001. Diamond Hit is a son of the international Grand Prix stallion Don Schufro. Don Schufro attained Olympic status under Andreas Helgstrand in addition to leading the FN Index since 2001 as the leading producer of dressage horses. Diamond Hit's dam, the Elite Oldenburg mare Loretta, is also mother to the near legendary Sandro Hit as well as the Premium stallion Royal Hit having thus created a new brotherhood in Oldenburg royalty. Diamond Stud's damline brings further acclaim to this beautifully bred stallion. Damsire Lavarino was Champion of the 1996 Holsteiner Stallion Licensing. Lavarino's exquisite movement and athletic capability are exemplary of his sire Laval I's reliable influence. Laval I is considered one of the best modern Holsteiner influences, with top sons, daughters, and offspring in both jumping and dressage. Holsteiner blood is not only a guarantee for supremacy in the jumping arena; today's top dressage horses are very often infused with the famous Hosteiner athleticism.

Performance Record: Bred by 1980 Olympic Gold Medalist Elisabeth Max-Theurer, Diamond Stud was imported in utero and born at Highlife Farm in Ocala, Florida. Diamond Stud's owner Joan Sims presented him to the GOV as a 4 year old. He was awarded with an unlimited breeding license given his exceptional quality. This noble black stallion presents a striking appearance with his uphill build and all black coat, complete with four white stockings and a star. His movement is powerful, supple and athletic. Equally impressive is his gentlemanly demeanor in the barn and with people.

Breeding/Progeny Record: Diamond Stud has produced one foal crop thus far and the results indicate this black beauty will be a reliable producer! Six out of seven foals presented to the GOV were titled premium.
