Origin: Lester Patron is a stallion of exceptional versatility and character. He descends from the famous Landgraf I line, known for their superior jumping talent and excellent gaits. He is closely related to famous L-Line horses such as Lingh, Lord Sinclair, Lanciano, Landadel and Flemmingh. His damline is from the well known Hannoverian line of Matrose, who you find in the pedigrees of such stallions as Milan (Champion stallion in Denmark), Pablo, (Westfalen Stallion). Lester Patron's sire, Lambda, was a Grand Prix jumper in Germany before being retired to stud and producing many offspring that have competed in Jumping and Dressage in Europe.

Performance Record: Lester Patron is currently competing in Dressage at Intermediare I with owner/rider, Shirin Amier. He consistently scores in the high 60's to mid 70's in the show ring with numerous high point and championships to his credit. He was champion in USDF All-Breeds for RPSI at Intermediare I in both 2007 & 2008 and is preparing to debut at Grand Prix. He received an impressive 9 for his free jump of over 5ft at the Oldenburg inspection in 2006 in California. He will also be entering the Hunter/Jumper arena next season!

Breeding/Progeny Record: Lester Patron offspring are competing successfully in both Jumping and Dressage. His oldest foal crop can be seen in the Hunter and Jumper divisions at many "A Circuit" shows, and others are working up the levels in Dressage, several qualifying for year end Championships!! Lester's offspring typically inherit his elegant lines, expressive gaits and excellent ridability as well as his easy going and affectionate personality.
