**Origin:** Showing successfully in international dressage competition, Parcival is also very well bred for the jumper. Both his sire and dam line have produced many successful Grand Prix and international jumpers, including half-brother Pavarotti (by Lancelot), currently successful in the Grand Prix ring with U.S. Team rider Todd Minikus, and Jeroen Dubbeldam's grand prix mount Nassau, who shares Parcival's damline (Jolanda). Half-brother Hamar (Mythens x Tamara) is a KWPN approved stallion who also jumped successfully in the United States with USET rider Laura Chapot, and has sired successful grand prix jumpers such as Blue Danube.

**Performance Record:** Competing on the Florida International High Performance Circuit in 2008, Parcival earned 2008 HOY All-Breeds (KWPN) A/A Intermediaire I, and 2008 Markel Amateur Winter Champion Int. I (avg. 69.277%) and PSG (avg. 69.361%). In his first season competing in the U.S., Parcival was 2007 USDF HOY A/A Prix St. Georges and HOY All-Breeds (KWPN) A/A PSG. Presently preparing for the Grand Prix. In addition to his pedigree and achievements, Parcival has an excellent character and kind manner that draws comment wherever he goes. Along with his eye-catching beauty, Parcival never fails to grab the attention of judges, spectators, and competitors.

**Breeding/Progeny Record:** Parcival's first U.S. foals will arrive in 2010.
