EVA Status: Neg/vac.3/07

Breeder's Terms: \$1700.00 LFG
\$300.00 booking fee-Collections
\$175.00+cost of shipping Fresh semen only.

Origin: Rolling Stone is by the late "Rubenstein I" who has sired such well-known competitors as Relevant "Rohdiamant" and "Royal Diamond". Rolling Stone's damsire, "Figaro", sired the dams of such notable mounts as Robert Dover's "Ranier" and Isabell Werth's "Aleppo" to name just a few.

Performance Record: In 2002, at Dressage at Lexington, Rolling Stone was the Champion Stallion in hand and under saddle. He was also winner of the Materiale class, the Oldenburg IBC class and Reserve Champion of the entire show! Rolling Stone returned to the show ring in 2005 at the Pinehurst Dressage Show. He went four for four, winning every class entered at Second Level with scores in the mid to high 60% with trainer/rider Stacey Schettkoe Hastings. In the next three years of training with Stacey, Rolling Stone has gone from Second Level to Grand Prix. He was the NCDCTA Horse of the Year at Third Level, and in 2007 won the GAIG/USDF Region 1 Championship at I-11. In 2008 he qualified for the regional championships at Grand Prix and was the Grand Prix Reserve Champion at the BLM Championships.

Breeding/Progeny Record: Rolling Stone's offspring have proven to be phenomenal with a 90% premium rate. His progeny are long legged and short coupled with generous, flowing movement and "picture perfect" conformation. Rolling Stone foals can be recognized by the above traits as well as their loving, inquisitive and playful temperaments. NC Breeder Deb Malinowski's Rolling Stone filly was Reserve Champion Region One at Training Level against 33 horses and with a median score of 68.8%.
