Premium/Elite/Keur, Premium Producing, & Performance  
Mare discounts; multiple mare & return breeder discounts

**Origin/Performance Record:** A most promising dark colored stallion by the World Champion in dressage, Sandro Hit, who is probably the most popular sire in the world right now because of his outstanding offspring. His daughter, Poetin, a Bundeschampion in dressage, sold for 2.5 million Euro at the PSI auction and is just the tip of his iceberg of exclusive offspring. Sagnol is a talented young dressage sire of caliber with three perfect gaits. He comes from the famous Holstein mare line 776, the legendary Ramiro line that never ceases to produce great highlights such as the sires Acorado, Calvados, Cortino, Lordanos or Roulette. A countless number of his offspring are active in top-level sport. What more can be said about his famous dam's sire, Landadel? Even after his death, his sons and daughters continue to leave a permanent mark on Oldenburg sport horse breeding. The Holstein sires, Fantast and Colt in particular, ensure a willingness to perform and the Thoroughbred stallions, Frivol xx, Cottage Son xx and Anblick xx add refinement and toughness to his pedigree. Sagnol is currently being ridden and shown by Canadian Olympic Team member Leslie Reid.

**Breeding/Progeny Record:** Sagnol is a beautiful modern type stallion, with three super gaits. He is a wonderful addition to the NA stallion base, and an exciting cross for a wide variety of mares. His first foal crop born in 2005, in Germany, was very well received. Sagnol's first North American born foals arrived in 2007, and this resulted in many premium foals, in the following years Sagnol has continued to be a consistent sire of premium offspring, and is producing a very high percentage of premium foals with every stud-book which he is approved. Sagnol's foal's are also proving to be in demand by FEI rider's looking for their top horse. Sagnol is siring very elegant foals, with beautiful heads and necks, correct conformation, very elastic movement, and very good temperaments. Sagnol's oldest offspring have now been started under saddle, and are proving to be very rideable and willing partners on top of their athletic ability and movement. In 2007, Sagnol also became one of the very few outside stallions ever to be approved by the American Holsteiner Horse Association, Sagnol is a sire for the future. Please see website for more details.
