Email: pangaea@kos.net

Website: pangaeafarm.com

Owner of Record: John Grills

EVA Status: Negative

Breeder's Terms: \$2,000.00
(includes booking fee)

Origin: Sandro's Heir is a son of the young but legendary Bundeschampion and Dressage World Champion, Sandro Hit. This top sire has a phenomenal breeding record that has already founded a new dressage-breeding dynasty with numerous incredibly successful offspring. Sandro's Heir's dam line is also most impressive, his mother, St.Pr.EI. Ruby Girl,, produced 3 licensed sons, four State Premium daughters and in total, eleven Premium foals in eleven years of breeding! She was sired by the stunning Holsteiner stallion, Castro (Calypso I x Landgraf I) winner of his Stallion Approvals, out of a St.Pr.EI. dam by Inschallah AA.

Performance Record: Sandro's Heir was Performance tested in Germany and had initially competed in Show Jumping prior to his importation to Canada in the winter of 2007. In 2008, he debuted in the FEI 6 Year Old Classes with solid scores and wins. In 2009, he competed at Fourth Level, sweeping every show entered and the resulting Championship titles at six straight competitions in Canada and the U.S! With consistent scores of 68-74% he proved his ability to balance his careers within the breeding shed and competition arena with a happy, gentle disposition. He is what a modern dressage sire should be; elastic, elegant and impressive in movement, balanced by a kindness, sensitivity and workman like approach to training.

Breeding/Progeny Record: Sandro's Heir was first made available for breeding in 2009 with frozen and fresh cooled semen. His highly anticipated, debut foal crop will arrive in 2010!
