2009

Breeder's Terms: \$2,000.00 stud
fee. \$400 nonrefundable booking fee.
Live foal guarantee.
Fresh chilled semen/frozen semen.
Stud fee payable at time of booking.

Origin: Acknowledged as one of Cantus' best sons, the elite Danish stallion, Willemoes, has old foundation bloodlines back to Cor de la Breyere. Although Holsteiner bred, Willemoes was raised in Denmark where he performed his stallion testing. Willemoes' dam, Wincett, is also one of the most influential mares in the modern breeding lines.

Performance Record: Willemoes competed on the Grand Prix level with international rider, Tina Lund. Ms. Lund also rode Willemoes in a World Cup qualifier. Willemoes had many Grand Prix wins before sustaining a career-ending injury. No longer able to compete, Willemoes now stands at stud.

Breeding/Progeny Record: Willemoes DVE 608 has over 170 registered offspring in the Danish Warmblood registry alone. Over 52% of his daughters are graded Premium mares. Nine offspring qualified for the DSA between 2001 and 2004, and seven participated in the Young Horse Championships. Wilhelm, Willson, and Cincett competed in the World Championships for Young Horses in Laneken at the Zangerscheide. Foal crops in the U.S. are now starting to enter the show ring and are continuing Willemoes' winning legacy.
