**Website:** www.watermark-farm.com

**Owner of Record:** Eleanor Rawle (Agent)

**EVA Status:** Negative

**Breeder's Terms:** Frozen Semen - \$1000.00 per dose  
Shipping, packaging and handling fees will be additional.

**Origin/Performance Record:** Dressage Royal's pedigree is as exceptional as his appearance. He was sired by the great dressage stallion Donnerhall, who won the team gold medal and the individual bronze medal during World Championships in Den Haag in 1995, along with achieving many other notable sporting titles. Donnerhall is one of the most important stallions worldwide, passing his above-average dressage qualities on to his offspring. Dressage Royal's dam, the legendary Rubinstein I, also had an exceptional influence on the European dressage breeding and advanced level dressage sport for more than a decade and also left his invaluable genes for the future. Dressage Royal distinguishes himself not only because of his excellent conformation, his unimpeachable character and his fantastic pedigree, but also through his own performances: his rideability, his basic gaits and his show jumping skills are of exquisite quality. This was confirmed by the testing committee and the test rider. His rideability for dressage was judged with 8.21 points, his show jumping qualities with a straight 8.00 during his stallion testing. Dressage Royal is fully trained to the Grand Prix level and has tournament success in Germany as a young horse. Mare owners should take special note of this stallion because of the high trainability and rideable temperament that is found in his genetic heritage with the dressage greats Donnerhall and Rubinstein in such close proximity. These two stallions are consistently found in the Top 5 of the FN rankings in Germany.

**Breeding/Progeny Record:** His outstanding son Damsey (out of a Ritual/Grande/Ladykiller mare) wowed spectators at his licensing and has since changed hands from Dorit and Hermann Kothe farm - he is now owned by Doug and Louise Leatherdale of MN (www.leatherdalefarms.com), while standing at the prestigious stud station belonging to Jens Meyer in Dorum, Germany. Several sons have been licensed for breeding in Europe as well as Damsey they have received favorable comments on their type, conformation and outstanding disposition. Doringcourt (out of a Glueckspilz/Diadem/Malachit mare), Uno Don Diego (out of Falkland/Tannenberg/Wendekreis mare) and Quoi-Que Corfeuil (out of a Pik Holiday/Astor Joly mare) are all licensed stallions and beginning excellent sporting careers with their various owners. The price highlight of the Vetcha Fall Elite Auction (October 2007) was the four year old gelding Desperado (out of a Roulette/Barsoi xx/Weltmeister mare). Desperado was the clear highlight of the auction collection with his rhythm, powerful movement and mesmerizing gaits - all of which resulted in the knockdown price of 210,000 Euros to the Pferde24 stables in Baden-Wurtemberg. He also placed Fourth in the Oldenburg Dressage Horse Championships (2007). Dressage Royal has excellent quality frozen semen with proven conception rates. Watermark Farm is the exclusive agent for Dressage Royal in North America. Please see our website for additional information, photographs and fees
