Owner of Record: Shirin Amier

EVA Status: Negative

Breeder's Terms: \$1800 fee for 2008
(includes booking fee)
Breeders discounts for early booking,
Elite and Premium mares available.

Tass Jones Photo

Origin: Lester Patron is a stallion of exceptional versatility and character. He comes from the famous Landgraf I line, known for their superior jumping talent. His damline is from the also well known Hannoverian stallion Matrose who is the damsire for many notable stallions such as the Westfalen stallion Pablo and the Hannoverian stallion Landkoenig. Lester Patron's mother, Monacco had very good gaits and temperment, qualities shared by many offspring of the Matrose line. Lester Patron's sire, Lambda was a Grand Prix jumper in Germany before being retired to stud and many offspring have competed successfully in both Dressage and Jumping in Europe

Performance Record: Lester Patron is competing in Dressage at Intermediare I with owner/Trainer, Shirin Amier. He has been consistently scored in the high 60's to mid 70's at this level and is preparing for Grand Prix at the end of 2008 show season. He received an impressive 9 for his free jumping of over 5ft at the Oldenburg inspection 2006 in California. An even more impressive score for a stallion that is not actively campaigned in Jumping! Watch for him and his offspring this year in the hunter/jumper arena!

Breeding/Progeny Record: Lester Patron offspring are competing successfully in both Jumping and Dressage. His oldest foals are now 7 years old and can be seen in the Hunter divisions at many "A Circuit" shows, and others are working up the levels in Dressage. Lester's offspring typically have his elegant lines, lovely expressive gaits and ridability. They also seem to inherit Lester's easy going and affectionate temperment.
