**Origin/Performance Record:** Nassau represents the best of the Dutch breeding program. His sire is the legendary "Roemer" - International Grand Prix Jumper and Grand Prix Dressage competitor; Sire of 5 Approved sons, 4 Preferent mares, 111 Star mares, 27 Keur mares, 211 Studbook mares and 75 First Premium foals; Approved for breeding by ISR/Oldenburg NA. He is out of the Star Preferent and Oldenburg Premium mare "Ghilaine" who is by the equally legendary stallion "Uniform" and is half sister to "Metallica."

This 1995 stallion has all the color, size, and style you will want to see in your foals. At 17'1" and with a lot of bone, he is the perfect stallion to improve your light mares without making them clunky. He is big, athletic, elegant, and is a true Champion. His mother and father have achieved fame in the international show ring, as will he and his sons and daughters. Nassau was the Reserve Champion of the 2003 North American 100 Day Stallion Test. Naseweis, a 2005 colt, is already proving Nassau's ability as a sire. He won the 2006 All-Breed DSHB for yearling colt/or gelding for The Oldenburg Horse Breeders' Society. Impressive movement and champion bloodlines make Nassau an excellent horse.

**Breeding/Progeny Record:** First Foal Crop 2005
