**EVA Status:** Neg/vac.3/07

**Breeder's Terms:** \$1700.00 LFG  
\$300.00 booking fee-Collections  
\$175.00+cost of shipping Fresh semen only.

**Origin:** Rolling Stone is by the late "Rubenstein I" who has sired such well-known competitors as Relevant "Rohdiamant" and "Royal Diamond". Rolling Stone's damsire, "Figaro", sired the dams of such notable mounts as Robert Dover's "Ranier" and Isabell Werth's "Aleppo" to name just a few.

**Performance Record:** Rolling Stone is by the world-renowned stallion Rubenstein I and out of St.Pr.ST. and Elite stud Waldblüte by Figaro (an exclusive main foundation Oldenburg line). Rolling Stone started by being Champion of his pre-test, completing his 100 day and then competing in Dressage. After a start of winning four for four at second level, he proceeded up the levels to crown off 2007 by being the Region I USDF Champion at Intermediare II. Look for his debut at Grand Prix in 2008!

**Breeding/Progeny Record:** Rolling Stone's progeny have been a high percentage of premiums and very sought after for competition horses. A lot of them outgrow him in height and are rapidly following him into all disciplines. More information should be on the website shortly. NC Breeder Deb Malinowski's Rolling Stone filly was Reserve Champion Region One at Training Level with 33 horses and a median score of 68.8%.
