Owner of Record:

Virginia Tech Foundation

EVA Status: Contact owner

Breeder's Terms: \$1200 (includes \$200 booking fee)

Origin: His legendary sire Donnerhall was the first popular breeding stallion who successfully combined showing and breeding at the highest level. Donnerhall competed on gold medal Olympic teams and was awarded an individual bronze at The World Championships in Den Hague. His progeny include 83 approved breeding stallion and 126 State Premium mares with the numbers still climbing. Included in this group are several Federal champions. His approved sons have also proved to be prolific breeding stallions. As a stallion his name was prominent in producing progeny for the Dressage arena, however there were several sons that made their names in the jumper rings, the most prominent being Donner Bube. Dam Dugranda, full sister of the sport star Geramanicus, represents the Goenerin line which also produced the stallions Tambourin, De La Vega, Trajan, Dolan, and Tamagua. Top sport horses Rangun, Escobado, Percy and Monteverdi also have origins in this mare line

Performance Record: Danse Diabolique absolved his 70 days test in 2002 at Neustadt Dosse and has fulfilled all requirements for full approval. Since importation to the US he has competed successfully in Hunter classes.

Breeding/Progeny Record: From limited breedings, Danse Diabolique has produced lovely Premium foals. Weanling daughter Highlife's Rockette placed 4th in the Oldenburg class at Dressage at Devon and 6th in the Fillies of 2005.
